CR7 Drive is developed by experts in sports nutrition. This unique carbohydrate-electrolyte solution contributes to the maintenance of endurance performance during prolonged endurance exercise and enhances the absorption of water during physical exercise.

CR7 Drive is high in vitamin B12 which contributes to normal energy-yielding metabolism and the normal function of the immune system, as well as thiamin which contributes to normal function of the heart. It also contains magnesium which helps reduce tiredness and fatigue and contributes to electrolyte balance.

CR7 Drive is under 100 calories per serve, is easy to make and easy to drink.

DIRECTIONS FOR USE: Mix 27 g (one sachet) of powder with 500 ml of water, shake vigorously. Best consumed during exercise. Enjoy this product within a balanced and varied diet, as part of a healthy active lifestyle.

Store in a cool, dry place.

Banned substance tested. The Informed-Sport quality assurance programme certifies that a sample of the batch from which this product was created has been tested by LGC's world-class sports anti-doping lab, and found to contain no banned substances in its anti-doping screen.
